DOMANI S32 Lounge

Unique features

- full vacuum infusion technique used for ALL composite parts, a unique process used by DOMANI Yachts; less emission in production, better for the environment, less weight and more stiffness for the yachts. Everybody happier.
- Lifting keel option - push button (minimum draft 1.1m)
- Width limited for conventional berths at 2.5m
- First 2ton ship with push button sail controls on the market. Full electric sail controls (sheets + traveler) Fingertip use panel designed in-house.
- all lines run on top of the deck but are easily accessible, no intrusion in the interior, no risk for water leaks
- Full led lighted deck for safe circulation on deck and a unique recognizable appearance
- Sun lounger on the aft decks for more comfort and an excellent view on the swimmers versus a flat sun deck
- ipad/smartphone installation possible at steering stations with charging option and without special holders required
- Integrated fold-out sturdy stainless steel swim ladder at stern, no aftermarket and frustrating installation
- Controls for light and appliances fully digital & bus engineered
- Only full E saildrives (Dutch made). DOMANI remains faithful to the zero-emission ambition.
- Pricing from €108k to full option €200k versus €300k for competitive daysailers
- Smart solutions that make life on board easy & comfortable; for instance, the large foredeck anchor locker that hosts also the code zero stowage, convenient.
- The hidden features; fridge box hidden under cockpit bench, awning posts hidden in hidden cupholders etc.
- An interior with sleeping comfort for 3 adults
- Standard transportation on dual axis road trailer at under 3 tons trailer inclusive. No 2 places are alike, explore new waters, discover new beaches.
